MEMORANDUM FOR: Chief, Production Services Division, NPIC

SUBJECT: Extention of the Magnification of the ☐ Briefing Board Enlarger to 160X

25X1

In order to meet the growing requirements for magnifications requested by the P.I. Staff, it is requested that action be taken to procure the two additional lenses to extend the magnification factors to 160X. At the present time, it is necessary to make an enlarged negative in order to meet these requirements. This in turn causes a loss of quality due to another added generation to the end product and a loss of man hours. 50% of the work produced on Mission 4024 had magnifications exceeding 120X.

☐
Chief, Photo Lab Branch, PSD
